

CTO / CIO

Technology operator with 35+ years in healthcare, banking, insurance and humanitarian operations, in North America and internationally. Has run technology as CTO, fractional CIO/CTO and senior vice president: launched a nationwide digital health platform, revived a stalled mobile banking program, cut policy costs by 40% for a global insurer and ran a \$190M infrastructure budget. Holds a doctorate in business administration.

EXPERIENCE	AT EXECUTIVE LEVEL	LARGEST TEAM	LARGEST ANNUAL BUDGET
35+ years	25+ years	200–1,000 people	\$50–250M

KEY EXPERTISE

Product	Product strategy & roadmap	New product introduction
Operations	Process & cost redesign	KPIs & performance management system
Finance & capital	Finance systems (ERP) implementation	
Technology	Technology strategy & roadmap	
	Legacy modernization / core platform replacement	
	Cloud migration & infrastructure	Cybersecurity & data protection
	IT governance, vendors & cost	
	Technology due diligence & integration	Stalled program recovery
Data & AI	Data foundation & governance	Analytics & BI capability
	AI strategy & roadmap	AI governance & policy
Leadership	Build the function from zero	Leadership gap cover
	AI in the function's workflow	Turnaround

SELECTED MISSIONS

Chief Technology Officer

Specialty pharmacy · North America

Led a specialty-pharmacy technology transformation that unified divisions under a \$3.5M realignment, launched a nationwide digital health platform, and deployed robotics, RFID routing, and cold-chain automation to strengthen accuracy, inventory integrity, and operational risk performance.

Drove triple-digit revenue and margin growth (120%).

Vice President, Digital Transformation

Commercial banking · North America

Took over a stalled \$25M mobile banking program at a North American commercial bank, recovered \$2.5M in runaway costs and brought it to an on-time launch as the bank's first native mobile app.

Moved infrastructure to Azure AKS and omnichannel customer identity, raising service uptime by 15%, and realigned vendors and processes to cut operating costs by \$5M.

Board advisor, digital transformation

Insurance · global

Advised the board of a global insurer on cutting cost through new business models. Built the business case for a new insurance platform with value-stream mapping and process modeling, and won board approval on the ROI analysis.

The analytics-based redesign cut policy costs by 40% and the policy lifecycle by 85%.

Fractional CIO / CTO

Humanitarian · Levant

Served as fractional CIO/CTO of a national humanitarian organization and set its technology strategy for emergency response. Led a \$12M modernization that digitized dispatch, fleet and blood-bank operations, including a GIS-based predictive dispatch system. The program helped secure multimillion-dollar donor funding.

Emergency response times fell by 25% and responders deployed 20% faster.

Senior Vice President, IT infrastructure

Retail banking · North America

Ran enterprise IT infrastructure for a large North American retail bank as a member of its senior executive team: more than 65,000 users and a \$190M budget. Directed a national IT refresh of hardware, software, omnichannel engagement and cybersecurity for regulatory compliance.

Renegotiated provisioning and supplier contracts, cutting those costs by up to 55%.
